---

Ok. Thanks Sean. We'll do that and hope confidence can be restored soon as our budget limits (based on a scope that was prepared over 2 years ago) will not sustain this level of oversight to the current POP of September 27th.

We may need to consider some additional oversight (emergency?) budget amendment to cover. Not sure if this is an option.

Scott

Thank you Scott and Howard. Scott I received your voice message from Friday and yes I think we need to ramp up oversight especially for the start of a new field activity and only ramp down once we are more confident that they are following epa's direction and that of our agents.

Sean and Davis,

Here is the daily report for Saturday on the oversight of the surface sediment sampling. Julee Trump will provide oversight tomorrow. Please call me if you have any questions.

Thank you,

Howard Young
